

Rolling tool bag with telescopic handle

GENERAL INFORMATION

Description

The wheeled backpack for your tools will make it a breeze for you to transport them around!

You can either carry it on your back or roll it thanks to its telescopic handle and wheels.

The bag includes a detachable and transportable 4-sided tool organiser, storage for a laptop, a pocket for your measuring tape, a compartment for a water bottle and pockets on the front to store the objects you need to get at quickly.

It also includes a protective cover to fold over the wheels when you carry the bag on your back. This will prevent you from getting your back dirty with dust from the wheels.
